First Aid For Aches and Pains

Mother knows
Resinol
will heal it
She has been through it so many times before that she never hesitates now. When anyone in the family comes to her with a spot of eczema or an itching rash, she gets out the jar of Resinol Ointment and gives prompt relief. And a few applications seldom fail to clear away the irritation completely.
Resinol Ointment is an excellent healing dressing, too, for burns, scalds, cuts and sunburn. Sold by all druggists. For sample card, write to Dept. A-1, Resinol, Baltimore, Md. Use Resinol Soap for babies.

Cuticura Soap
Clears the Skin
and Keeps it Clear
Soap, Ointment, Tablets, etc. everywhere. Samples free of Cuticura Laboratories, Dept. 2, Boston, Mass.

LINERS NOW AT SEA
MUST COME IN DRY
New Dry Deadline Is Set for All Save Vessels of Nine Fleets.
AWAIT HAND DECISION
Meantime Steins and Decanters Must Be Regulated With Logs.

WASHINGTON, Oct. 22.—Ocean steamships which left foreign ports to-day for the United States faced the necessity of carefully computing the amount of alcoholic beverages on board against the mileage shown by the ship's daily log. The last stein and decanter must be emptied before the ship crosses the three mile line marking the accepted limit of American maritime jurisdiction, under an interpretation of the prohibition laws which became effective at 12:01 o'clock this morning.

Fleets of nine companies are exempt temporarily from operation of the law by reason of injunction proceedings pending before Federal Judge Hand in New York, and will be permitted to enter with their wet goods safely sealed under the system which prevailed before Attorney-General Daugherty ruled that the Eighteenth Amendment and the Volstead act applied to American "territory" as a whole, and not only to the continental terra firma.

The nine exempt lines include two American companies—the International Mercantile Marine and the United American Lines—and seven registered under foreign flags—the Canadian-American, White Star, French, International Navigation, Holland-America, Scandinavian-American and the Royal Steam Packet. They have sought permanent injunctions against enforcement of the law on the ground that Mr. Daugherty went further than the authors of the statute and amendment intended, or if he did not err in this respect, then the act itself was illegal in scope.

All other ships come within the law's meaning set forth by the Attorney-General and approved by President Harding. Administration officials did not foresee an immediate contingency arising from a violation by some foreign ship. Bermuda, the nearest foreign port of regular call, is forty-eight hours from New York, while the transatlantic liners require from five to eight days to complete their voyage. It was considered probable, therefore, that a week might elapse before the enforcement agents would be called upon to apply the new restriction.

Meanwhile officials here were confident that the forthcoming decision of Judge Hand might serve temporarily to clear the atmosphere. Regardless of its nature, however, an appeal will be taken to the Supreme Court.

Secretary Mellon expected to give approval to-morrow to regulations formulated by the prohibition bureau for guidance of customs and prohibition authorities along the coasts. In view of their bearing on the relations of the Government with foreign maritime nations, both the State Department and the Department of Justice are expected to take an especial interest in the procedure.

The regulations are expected to delimit clearly the activities of the "dry" navy to the three mile zone except in cases of ships which have illegally established contact with the shore, while themselves outside the zone. Several cases involving this point already are engaging the attention of the White House and State Department, notably that of the Canadian schooner Emerald, which was recently seized eight miles off New York.

The British Embassy has made an issue of the Emerald seizure, contending there was no evidence to show that she was in touch with American territory. The prohibition agents at New York assert that they came upon the ship while small boats from the shore were engaged in transferring her liquor cargo, and that this was sufficient to warrant her detention. A more complete report has been asked by the State Department.

MRS. FORGETTI FORGOT
AND THEN REMEMBERED
Tale of a Soda, a Dollar Bill and a Twenty.

PROVIDENCE, Oct. 22.—Having complained to the police that a soda clerk had given seventy cents to her in change from a twenty dollar bill, a woman here was asked to recall her experiences, as the clerk insisted he had received a dollar bill for her purchase of a sundae. She recalled then that she had a dollar bill and a twenty dollar note. The latter, she remembered, she had given to her husband for safe keeping. Asked by the police to give her name for their report she replied: "Mrs. Forgetti, but I shan't forget to apologize to the clerk."

5,000 AT EXERCISES
OF GERMAN AMERICANS
Public Officials Commemorate Town's Founding.

Five thousand members of the United German American Societies were in the Hippodrome yesterday afternoon at exercises commemorating the founding of Germantown by pioneers in 1653. Magistrate Charles A. Oberwager was chairman. John P. O'Brien, Corporation Counsel, presided over the exercises. For surrogate, delivered a message from Mayor Hyman. At the meeting were Senator William M. Calder, District Attorney Banton, Henry Heide, Ludwig Nissen, Dr. Wm. J. Pappas and John Grossgebauer of Paterson, president of

TYPHOID CARRIER 20 YEARS,
HAS INFECTED 13 PERSONS
State Health Department Puts Under Restriction a Mother-in-Law Who Innocently Spread Fever Germs Throughout Her Family.

ALBANY, Oct. 22.—A mother-in-law, who for more than twenty years unwittingly and innocently has infected with typhoid germs members of her family and others in up-State cities, has been "traced" by State and local health authorities, found "positive" to test and put under restriction to prevent further contagion. Thirteen cases of the disease may be traced to the woman, health authorities say.

The first to be infected was a boarder, who fell ill with typhoid in 1900. Since that time the health officials say the woman has visited in the homes of her sons and daughter-in-laws for varying periods with the result that she has infected four sons-in-law, two sisters, the father and mother of one of the sons-in-law, two grandsons and in-

directly a nurse employed in one of the cases. Two other sons-in-law have thus far escaped, but recent visits of the mother-in-law are taken to indicate their danger.

The woman's desire to aid in kitchen work gave her opportunity to spread the disease by passing germs to food and dishes she handled, the health authorities say, but the case is considered the more remarkable that not one of the woman's own children, seven daughters and three sons, have contracted the disease.

A blood examination proved positive when the woman was suspected of being a chronic spreader of typhoid fever six years ago, but until recently she refused to submit more specimens. A few weeks ago three specimens were taken and were found positive beyond all doubt to tests for the presence of the typhoid bacillus.

PHYSICIANS ARE BACK
FROM FRENCH CONGRESS
Lafayette Also Brings Noted
Geologist—Baltic In.

The French liner Lafayette, from Havre, arrived yesterday, after facing heavy seas off the Banks of Newfoundland, only a few hours behind schedule. On board were several American physicians who have been attending the French Surgical Congress in Paris, including Dr. H. Edward Castle of San Francisco, expert in plastic surgery.

Prof. Emmanuel de Margerie of the University of Strasbourg and chief geologist of the Geological Survey of France arrived to lecture here on the topography, cartography and structural geology in France in the last hundred years. In the world war he was secretary of the committee studying problems of frontier adjustment and made a special report on the Saar coal field.

Peter R. Waller, fifteen years a transatlantic traveler, got to Havre without his passport and minus a lot of American dollars, a check book and jewelry. He occupied a compartment by himself in the train to Havre from Rouen, and while he was absent less than a minute some swiftly moving crooks stole his satchel.

Pietro Yon, organist of St. Francis Xavier's Church, returned from a visit to Rome, giving there, by invitation of the Pope, an organ recital. He was nominated honorary organist of the Vatican and five years hence may go there to stay.

Other arrivals by the Lafayette were Mr. and Mrs. William S. Edgar, who have been motoring in England; Dr. and Mrs. Francesco J. Caputo of Porto Rico; Henry Dietl, Prof. Bernard Fay, Mr. and Mrs. Charles A. Stevens and Lyman Beecher Stowe, grandson of Harriet Beecher Stowe.

Wilfred M. Voytko returned by the White Star liner Baltic, in last night from Liverpool and Queenstown, with three boxes of rare books and manuscripts acquired in England and France. His most valuable find, he said, was a first edition of St. Thomas Aquinas.

Arrivals by the Baltic were Walter Andrews, president of the British Wool Federation, and three other English manufacturers, here to find what effect the new tariff will have on the wool industry; also William Liddell, son of Sir Robert Liddell, linen manufacturer of Belfast, and Lady George Cholmondeley.

BRONX ZOO RECRUITS
SEALS FROM LONDON
Keeps Installing Animals in
Winter Quarters.

Four seals are the latest recruits to arrive at Bronx Park, which is buying heavily in the wild animal markets. The seals came from a London dealer, who supplies the park with many of its new residents. The temporary home of the seals is in the reptile house.

The oldtimers among the seals who splashed and dived all summer in the outdoor pool have retired indoors. With the recent chilly breezes all animals have gathered around Head Keeper Toomey's fireplace. The kangaroos, the giraffes and the antelopes are praying that it will be a warm winter, or that the coal shortage will be made up. They cannot stand cold weather, says Mr. Toomey.

All the birds were caught Friday and put into winter quarters. They could be snared in their large flying cages only after they had tired themselves out with flying. Accordingly, one man perched himself in the top of the cage, waving a long pole with a rag tied to it to keep the birds from the perches. Below another keeper waited for them to light on the ground. Then he grabbed them, big and little, crane and pelican and heron, and hustled them off to their winter quarters.

Electrify the Home!
ELEXIT outlets are an innovation in the electrical field. Lighting fixtures may be hung or removed from them as easily as a picture is hung or removed from a wall, or interchanged with other lighting fixtures around the house at will. When not so used they become convenience outlets to which any electrical appliance may be connected.

Our special home wiring plan will interest every non-user of electric service. Your electrical contractor, or any of our representatives, will gladly explain it to you in detail. Telephone Stuyvesant 4980.

SPIRITUALISTS DEFY
ANY TO FOOL THEM
Assembly Offers \$5,000 to Charity if Trickster Obtains 'Manifestations.'

EIGHT TESTS SET FORTH
Mediums Demand Writings
Imitating Script of Some
One Physically Dead.

The General Assembly of Spiritualists, whose headquarters is at 605 Elmwood avenue, Buffalo, announced yesterday a reward of \$5,000 for any person who could produce by trickery, fraud or deception eight stipulated "manifestations" of spirit power. The production must be to the satisfaction of five impartial judges. The reward is to be paid to any charity the trickster may select.

The "manifestations" are stipulated as follows:
First—Materialization of etheric or astral forms while the trickster is confined and locked in a wire enclosure.
Second—Writing on slates or paper in legible messages, in the handwriting of those whose physical body is dead.

Such writing must be produced on the inside of sealed slates, or enclosures, and produced while no human hand touches either the surface upon which the writing is produced nor the container in which it is produced. All must be produced in the bright sunlight and within the view and presence of the judges.

Third—The correct playing of a piano of difficult music by one who has never played nor had instruction nor known the particular selection played.
Fourth—The correct writing of a foreign language by one who has never known, practiced or had instruction in the writing of said language.

Fifth—The correct speaking of a foreign language of which the speaker has had no previous instruction nor has ever personally spoken.
Sixth—The levitation of ponderable bodies without the application of any mechanical or physical force to the object levitated, or the touching of the same at the time when the levitation is taking place.

Seventh—The production of independent voices. By this is meant the production of voices without the use of the vocal organs of any physical body, and the conveyance of intelligible communications from those whose physical bodies are dead to those whose physical bodies are not dead through said medium.

Eighth—The correct and accurate description of those whose physical bodies are dead by one who has never known, seen nor heard, nor had information concerning the one from whom communications are received and of whom description is given.

FIVE DIE IN MOTOR WRECK.
LITCHFIELD, Ill., Oct. 22.—Five persons were killed when an automobile was struck by an Illinois Central train at Wagoner, near here, to-night. The dead are: Miss Lucile Scott, 20, of Raymond; Miss Ruth Boyd, 19; H. Ray Koefe, 21, and wife and infant, all of Hillsboro.

BOY OF SIX CONDUCTS
SERVICES IN CHURCH
Bible Stories His Only Preparation for Pulpit.

BALTIMORE, Oct. 22.—Newton E. Hastings, Salisbury, Md., is only 6 years old; he has just entered public school and has had no conscious preparation or coaching for ecclesiastical pursuits; but to-day he conducted services in St. Paul's Methodist Protestant Church here in the manner of an experienced minister.

The youthful preacher is a son of Paul Hastings of Salisbury. For the last six months he has been speaking before congregations in Salisbury and nearby towns. To-day's services were the first the child has conducted in Baltimore, and he came at the invitation of the Rev. F. D. Reynolds, pastor of St. Paul's Church. His father says that the boy has had no Biblical instruction other than the Bible stories and passages which have been read to him in his home and at Sunday school.

VETERANS' TABLE UNVEILED.
A tablet in memory of Jewish soldiers in the 165th Infantry (old 69th) who died in France was unveiled yesterday in Salem Fields Cemetery by the Veterans Corps, Sixty-ninth Regiment, Inc.

1922 ATLAS With Maps of New Europe **FREE**
To the readers of the N. Y. Herald who take advantage of this offer now made in connection with Webster's New International

The Only Grand Prize (Highest Award given to Dictionaries at the Panama-Pacific International Exposition was granted to Webster's New International and the Merriam Series for superiority of educational merit.)

Words of Recent Interest
Anzac, ace, barrage, Bertha, blighty, Boche, Bolshevik, camouflage, Lewis gun, Liberty bond, Sammy, solet, tank, war bride. These are but a few from the thousands of late words—all clearly defined in this great work.

"The Supreme Authority"
The Merriam Webster
A Complete Reference Library in Dictionary Form—with nearly 5,000 pages, and type matter equivalent to a 15-Volume Encyclopedia, all in a single volume. In India Paper, in Rich, Full Leather or in Plain Paper with gold lettering. Paper in Strong Fabricoid, can now be secured by readers of The New York Herald on the following remarkably low terms:

The entire work (with complete 1922 Atlas)
DELIVERED for \$1.00
and easy monthly payments thereafter (in United States and Canada) on SUPERIOR INDIA PAPER

Reduced About ONE-HALF
In Thickness and Weight
India-Paper EDITION
Printed on thin, opaque, strong, superior India Paper. It has an excellent printing surface, resulting in remarkably clear impressions of type and illustrations. Want a satisfaction to own the new Merriam Webster in a form so light and convenient to use. This edition is only about one-half the thickness and weight of the regular edition. Size 12 1/2 in. x 9 1/2 in. x 5/8 in. Weight 8 1/2 lbs.

Regular Paper EDITION
Printed on strong book paper of the highest quality. Size 12 1/2 in. x 9 1/2 in. x 5/8 in. Weight 16 1/2 lbs.
Both editions are printed from the same plates and indexed.

Over 400,000 Vocabulary Terms, and, in addition, 12,000 Biographical Names, nearly 30,000 Geographical Subjects, besides thousands of other references. Nearly 3,000 Pages. Over 6,000 Illustrations.

"To have this work in the home is like sending the whole family to college."
The only dictionary with the New Divided Page, characterized as "A Stroke of Genius."

THE ATLAS
Is the 1922 "New Reference Atlas of the World," containing 148 pages, with 96 pages of maps, beautifully printed in color, including changes brought about by the Great War, New Census Figures, Parcel Post Guide, etc., all handsomely bound in red cloth, size 9 1/2 x 12 1/2.
